EXPERIENCE

The Charlotte Observer

Journalist | Jan 1995 - April 2016

- Publishing system consultant for more than a decade, in addition to journalist duties. Provided specifications for system capabilities, consulted with developers, tested delivered products, documented bugs, brainstormed future functionality.
- Trained employees on various technologies, including the publishing system for print and online. On site in Charlotte, Raleigh, Rock Hill, Columbia and Myrtle Beach.
- Consulted with leadership at multiple news organizations about publishing system development and strategies for centralized editing and design work.
- Primary editor and supervisory editor on stories that required acquisition and analysis of public data, from elections to budgets to traffic stop patterns by police.
- Directly responsible for managing and developing dozens of employees, including managers.
- Prior to Charlotte, worked as a news reporter at the Houston Post and the St. Louis Sun, and as associate editor at the St. Louis Business Journal.
